This page is the login page which is used for logging in and here you can also reset the password using forgot password option. If the user doesn't give correct password it will show an error messages.

The screenshot displays a web browser window with the address bar showing '127.0.0.1:8000/register'. The browser's tab bar includes 'localhost / localhost / ecomm...' and 'Laravel'. The page header shows the username 'Risky_Rider' and navigation links for 'Login' and 'Register'. The main content area features a registration form titled 'Register' with the following fields: 'Name', 'E-Mail Address', 'Password', and 'Confirm Password'. Each field is represented by a text input box. Below these fields is a blue button labeled 'REGISTER'. The browser's bookmark bar at the top lists various links such as 'Apps', 'Index', 'TBC Login', 'Blackboard', 'Index of TBC L5', 'phpmyadmin', 'Google Drive', 'www.youtube.com', and 'Yemin the promise...'. A 'Reading List' icon is also visible on the right side of the bookmark bar.

This is a register page where we will register new user for giving newly access to new user and which will be recorded in the databases.

This is the dashboard of my page after I get logged in the system.
